

Coronavirus Statement

As elders, we are in full agreement that meetings, if held, would contradict government guidance and this is a step we are reluctant to take. Therefore, until further notice, all gatherings are to cease with immediate effect. Our responsibility is to try to best look after those under our care and we want you to be safe. The government has highlighted some vulnerable groups which need special care at this time and we are keen to provide exactly this in every way possible.

Alternative arrangements are being worked on and we will issue fuller information for the church on our Quiet Times page in the next few days to advise of these provisions. Thank-you.

The Elders
